

# 2025 Delaware River Virtual Swim - Event Progress Information

## 1. Progress Map (Solos and Relay Teammates)

<https://reg.resport.io/challengemap.jsp?ra=5626619190312960&re=4637633529511936>

This page allows you to see the status of every individual swimmer. It defaults to the Solo swimmer but there is a drop down at the top that lets you select the swimmers on a 3 person relay and also the swimmers on a 4 person relay. The displays of the relay swimmers will show their individual yardage as well as their team name. There is also a drop down that lets you select age group (toggle from In Progress). Note that it will only show swimmers AFTER they have entered some yardage.

On your phone, the table often covers the map, so you can click on the "hide" button to hide the table and view the map.

The "MI" button on the bottom displays mileage mile markers

## 2. Progress Map (Relays)

<https://reg.resport.io/challengemap.jsp?ra=5231066040238080&re=6393972727480320>

This page is very similar to the Solos page except that the displays are all for the relay distance totals. You can select the 3 person or 4 person relays and you can also select the relay age group (toggle from In Progress)

## 3. Standings Chart (Solos)

<https://reg.resport.io/altleaders.jsp?ra=5626619190312960&re=5730950908477440>

This page displays a rank order of all solo swimmers. On the top right you can click on the bars to filter the table by gender, age group, club, and/or LMSC.

## 4. Standings Chart (3-person relay)

<https://reg.resport.io/altleaders.jsp?ra=5231066040238080&re=4815415647666176>

This page is the same as the solo standings, except that it is for the 3-person relays. You can filter this data by LMSC, Club, and Age Group.

## 5. Standings Chart (4-person relay)

<https://reg.resport.io/altleaders.jsp?ra=5036497377951744&re=4624653232373760>

Same as 3-person relay, but for 4-person relays. You can filter this data by LMSC, Club, and Age Group.

**NOTE: It is important that the data you enter for your swim yardage in the Google form include a correct Age Group value (18-24, 25-29, 30-34, etc.), a correct USMS Club abbreviation (JACM, SCYM, XCL, UC07, etc.), and a correct Relay name.**

**Please direct questions to Linda Brown-Kuhn @ [lindabk11@gmail.com](mailto:lindabk11@gmail.com).**
